Paul E. Greenberg, Director of Analysis Group's Health Care Practice, consults to pharmaceutical, biotechnology, and medical device companies in complex business litigation matters. Mr. Greenberg's litigation experience has included performing economic and statistical analyses in support of testifying experts, as well as presenting findings to investigators from US Attorneys' Offices and the Office of the Inspector General in numerous cases in which violations of the False Claims Act and/or the Anti-Kickback Statute have been alleged. Mr. Greenberg has provided economic consulting support in connection with class certification, liability, and damages in cases involving allegations of product failure, product fraud, antitrust, and/or patent infringement in the biopharmaceutical industry. He has provided strategic assistance to counsel at various key points in litigation, including pretrial discovery, settlement negotiations, and trial preparation. In the area of health economics and outcomes research (HEOR), Mr. Greenberg has undertaken cost-of-illness studies relating to numerous psychiatric and physical disorders, as well as pharmacoeconomic assessments of the cost-effectiveness of drugs based on data gathered in clinical trials and/or administrative claims files. Mr. Greenberg's work in HEOR has been widely published in leading medical and health economics journals. He currently serves on the editorial boards of *PharmacoEconomics*, the *Journal of Medical Economics*, and *Expert Opinion on Pharmacotherapy*, and he previously served on the editorial boards of *Law360's Life Sciences* and *Health Care* electronic newsletters.
